Because a robotic mower is a high-speed cutting tool, designed for operation independent from the active control or supervision of an operator, special safety precautions must be observed to reduce the risk of personal injury.

Debido a que un robot cortacésped es una herramienta de corte de alta velocidad, diseñada para funcionar independientemente del control activo o la supervisión de un operador, deben observarse precauciones especiales de seguridad para reducir el riesgo de lesiones personales.

Un robot de tonte étant un outil de coupe à grande vitesse conçu pour fonctionner indépendamment de la commande active ou de la supervision d'un opérateur, des précautions particulières doivent être observées pour réduire le risque de blessures
